

The Park Listserv

You need a Google account to join, but can create one using your preferred email address.

To join the listserv:

Go to <http://groups.google.com/group/parkschool> and apply for membership. You will get a welcome message so make sure it doesn't go into your spam folder.

If you need to set up a google account first, you should go to:

<https://accounts.google.com/SignUp>

If you don't want a new email address (a gmail address), click on the line that says "I prefer to use my current email address". Once you have an active google account, you can apply to the listserv.

To change your delivery options:

Visit the group on line at <http://groups.google.com/group/parkschool> and sign in. Go to MY SETTINGS at the top of the page, go to MEMBERSHIP EMAIL SETTINGS, and then choose how often you'd like to receive emails from the group.

To post to the group:

Compose your message in the format of a regular email, with whatever subject line you'd like. Send the email to Parkschool@googlegroups.com. You can link flyers and photos, just as you would a regular email. You must send it from the email address that you have a membership with.

If you have any questions, please don't hesitate to get in touch with the managers by visiting this page:
