

# SUNDAY

We look forward to welcoming you to BRAIN sPARK on Sunday afternoon! A few reminders as we head into the weekend:

Parking will be available throughout the Park School campus, but is limited! With a full campus, we encourage carpooling, drop-offs, and ride sharing services, if at all possible. Please arrive early to give yourself time to park, take a shuttle, and get to your first session. Remember, doors open at 3 p.m., and the first session begins promptly at 4 p.m.

There will be four registration stations: the central registration station in the Davison Lobby by the Meyerhoff Theater, and three fast-track stations (Athletic Center, Lower School Entrance, and Black Box Theater). We recommend using the fast-track stations if you have your registration copy on hand (print or electronic), and have a familiarity with the campus.

Volunteers will be available at all check-in stations to assist you. Please proceed to the main registration in the Davison Lobby by the Meyerhoff Theater if you're in need of special assistance, or have additional questions.

One of the most special aspects of this triennial event is the opportunity to come together as a community. We are mindful that we are faced with rapidly evolving news regarding the spread of COVID-19. With the best information at hand, we are enthusiastically moving forward with this special event! Some things to consider:

- Please, if you are sick, stay home and get well. We will miss you, but it will be no time before BRAIN sPARK 2023!
- If you have any reason to believe that you have been in areas where the risk for any respiratory virus or the flu is high, please stay home. You, too, will be missed...but we'll make it up to you in 2023.
- At the event, we will absolve one another of any obligation to shake hands or hug! The best thing we can do for each other is to stay healthy

and enjoy the evening without worry! Smiles, nods, and elbow bumps will suffice!

- Soap and hand sanitizer dispensers are fully stocked, and ready for liberal use.
- Prior to eating dinner at the event, take a moment — specifically, 20+ seconds — to wash your hands.
- Other things that we have been reinforcing with the student body this week are: cough or sneeze into your elbow; and stop touching your face! (You might want to touch your face right now — but don't! 😊) Here's a [great resource](#) that we shared with our Lower Schoolers this week.

All of these measures are easy, effective ways to reduce the spread of colds, the flu, and other viruses.

**Thank you so much for participating in this uniquely Park event — with special gratitude to our presenters and our volunteers!**

**See you on Sunday!**
