

PARK BY THE NUMBERS: *The diverse and dynamic pursuits of our students — and the lives of achievement, generosity, and joy once they leave Old Court Road — best represent the value of a Park education. Here are some numbers, too, that help tell the Park story:*

PARK has grown and developed on **3** campuses since our founding in **1912** as a coeducational, non-sectarian, independent school.

Located at **2425** Old Court Road, and referred to as “a city school in the country,” our roots remain firmly planted in Baltimore (the original campus was adjacent to Druid Hill Park) with a deep sense of engagement with, and responsibility to, the community in which we live.

Our **100**-acre campus — located just **18** minutes from the Inner Harbor — is a thriving learning laboratory that includes woodlands, a pond and stream, the *Appalachian Challenge* outdoor education course, trails, gardens, and more. We train and compete on our **9** athletic playing fields, including a state-of-the-art AstroTurf surface, and an NCAA regulation baseball field.

Our academic community itself is made up of **806** students, Pre-K through Grade 12, and a faculty of **100** full-time and **19** part-time inspired and inspiring teaching professionals.

89 Park faculty members hold master’s or other advanced degrees, with **6** Ph.D.s, **1** Ed.D., and **1** J.D. among them.

Our teachers have an average experience of **21** years in teaching, with an average tenure of **13** years at Park.

Park’s school-wide average class size is **15** students — and we maintain a **7:1** student/teacher ratio.

Our community of lifelong learners — including students, teachers, parents, and grandparents — is active and engaged. We value, in particular, our strong relationships with our alumni, **74** of whom are current Park parents!

continued, over

PARK BY THE NUMBERS, CONTINUED:

Our **117** new students in 2020 represent **14** percent of the Park student body and come from **70** different schools in **39** zip codes in and around Baltimore. **32** percent of our new students identify as people of color. A number of our students are already connected to Park : **29** join siblings already enrolled at Park and **19** follow in the footsteps of parents, grandparents, and/or family members who are proud Park alumni.

Park families come from many social, economic, racial, and religious backgrounds. Need-based Tuition Assistance is provided to more than a third of Park students — **39** percent.

There is quantitative evidence that excellence is the natural outcome at Park. Though we don't teach to the test, **90** percent of AP test-takers from the Class of 2020 scored a three or better. On the SAT, the average score for Park's Class of 2020 test-takers was greater than **1300** — *on a 1600-point scale* ; for the ACT, the average score was **30** — *on a scale of 1–36*.

Our students are well-rounded and engaged. **91** percent of Upper School students are enrolled in art courses. **64** percent of Upper Schoolers play on athletic teams. More than **65** student-led clubs and activities represent the passions and pursuits of our students — including beekeeping, biomedical research, stage fighting, international aid, Asian culture, mock trial, music tech, and mentoring.

There is only **1** Park School of Baltimore.
