

PARK BY THE NUMBERS: *The diverse and dynamic pursuits of our students — and the lives of achievement, generosity, and joy once they leave Old Court Road — best represent the value of a Park education. Here are some numbers, too, that help tell the Park story:*

PARK has grown and developed on **3** campuses since our founding in **1912** as a coeducational, non-sectarian, independent school.

Located at **2425** Old Court Road, and referred to as “a city school in the country,” our roots remain firmly planted in Baltimore (the original campus was adjacent to Druid Hill Park) with a deep sense of engagement with, and responsibility to, the community in which we live.

Our **100**-acre campus — located just **18** minutes from the Inner Harbor — is a thriving learning laboratory that includes woodlands, tributary, pond, Appalachian Challenge outdoor education course, trails, gardens, and more. We train and compete on our **9** athletic playing fields, including a state-of-the-art AstroTurf surface, and an NCAA regulation baseball field.

Our academic community itself is made up of **814** students, Pre-K through Grade 12, and a faculty of **100** full-time and **17** part-time inspired and inspiring teaching professionals.

87 Park faculty members hold master’s or other advanced degrees, with **5** Ph.D.s, **1** Ed.D., and **2** J.D.s among them.

Our teachers have an average experience of **20** years in teaching, with an average tenure of **11** years at Park.

Park’s school-wide average class size is **15** students — and we maintain a **7:1** student/teacher ratio.

Our community of lifelong learners — including students, teachers, parents, and grandparents — is active and engaged. We value, in particular, our strong relationships with our alumni, **70** of whom are current Park parents!

continued, over

PARK BY THE NUMBERS, CONTINUED:

Our **118** new students in 2019 represent **14** percent of the Park student body and come from **81** different schools in **39** zip codes in and around Baltimore; from various regions throughout the United States; and from international locations including China, England, Kuwait, Norway, and Spain. **31** percent of our new students identify as people of color. **27** join siblings already enrolled at Park and **16** follow in the footsteps of parents, grandparents, and/or family members who are proud Park alumni.

Park families come from many social, economic, racial, and religious backgrounds. Need-based Tuition Assistance is provided to more than a third of Park students — **37** percent.

There is quantitative evidence that excellence is the natural outcome at Park. Though we don't teach to the test, **94** percent of AP test-takers from the Class of 2019 scored a three or better. Over the course of the last **10** years, Park has had *more National Merit Scholarship Semifinalists* than any other coed independent school in Maryland.

On the SAT, **64** percent of Park's Class of 2019 test-takers scored greater than **1300** — *on a 1600-point scale*.

Our students are well-rounded and engaged. **91** percent of Upper School students are enrolled in art courses. **64** percent of Upper Schoolers play on athletic teams. More than **65** student-led clubs and activities represent the passions and pursuits of our students — including beekeeping, biomedical research, international aid, stage fighting, Asian culture, mock trial, music tech, and mentoring.

There is only **1** Park School of Baltimore.
